

State Leadership & Skills Conference 2024

Electrical Construction Wiring

Additional Equipment is needed by EACH competitor for the competition on March 27, 2024.

These items were secured through donation last year and although we had expected to receive these again this year, as of today's date (03/18/2024), we have not. This could change, but to err on the side of caution, please bring all of these items for EACH of your competitors. They will not be supplied at this time.

<u>Quantity</u>	<u>Description</u>
